Mr. Pollard,

The following references were found, and are considered by both Gerry and myself to read over claim 1, as amended:

2002/0107735

7,426,513

Both of which talk about client side annotation, similar to Example 1 of the original specification.

6,092,074 as cited in the applicant's originally filed specification page 5, along with the client side processing shown in the above references.

also attached is Search.com as spoken about on Tuesday the 16th

Gerry and I suggest amendments directed toward the Example 1 of the original specification to help distinguish the claims from the prior art.

Thank you,

Paul Fisher

Paul:

Thank you for your voicemail. My schedule is generally open next week for the rescheduled interview.

I understand that you will provide us with a copy of the references that Jerry mentioned in yesterday's interview, as well as a suggestion for amendments to independent claim 1 that would overcome the references of record as well as the newly identified references that you will be sending. As I mentioned to Jan, receiving these materials at least 24 hours before the scheduled interview would be helpful to ensure a productive discussion of the issues.

Best regards,
Lloyd
